Food Safe Portion Cups

Thermoformed Rigid Containers

E. Hofmann Plastics carries a line of thermoformed polypropylene containers that are suitable for juice, dips, sauces, dressings, coffee, apple sauce, and a number of other applications. Our state of the art technology allows us to consistently produce a range of high quality products for all our customers.

All our containers are available with a barrier sheet for extended shelf life. Hofmann's plastic rigid containers are suitable for hot-fill, retort, in-package pasteurization, aseptic, ambient, and cold-fill applications. As well, we can provide freezer friendly cups. We carry a variety of stock sizes in our rigid packaging portfolio that are ready to ship.

E. Hofmann Plastics can also provide automatic filling lines.
